

Where do the papers presented at Helsinki Finance Summit end up at?

Aalto University School of Business

Department of Finance

13.6.2022

Helsinki Finance Summit

- Helsinki Finance Summit (HFS) was organized for the first time in August 2011 with an aim for being a premiere, small conference in the area of investor behavior
- Each year, the program features about 10 paper presentations
- This document reviews the eventual publication success of the presented papers

Publication success metrics

- Consistent with Reinartz and Urban (2017, Journal of Empirical Finance), the analysis uses the following publication success metrics
 - TOP3 (Journal of Finance, Review of Financial Studies, Journal of Financial Economics)
 - TOP3_Econ (+AER, Econometrica, JPE, ReStud, QJE)
 - ABS4 (+all other ABS4* and ABS4 journals in the 2015 ABS ranking)
 - Published (any journal)

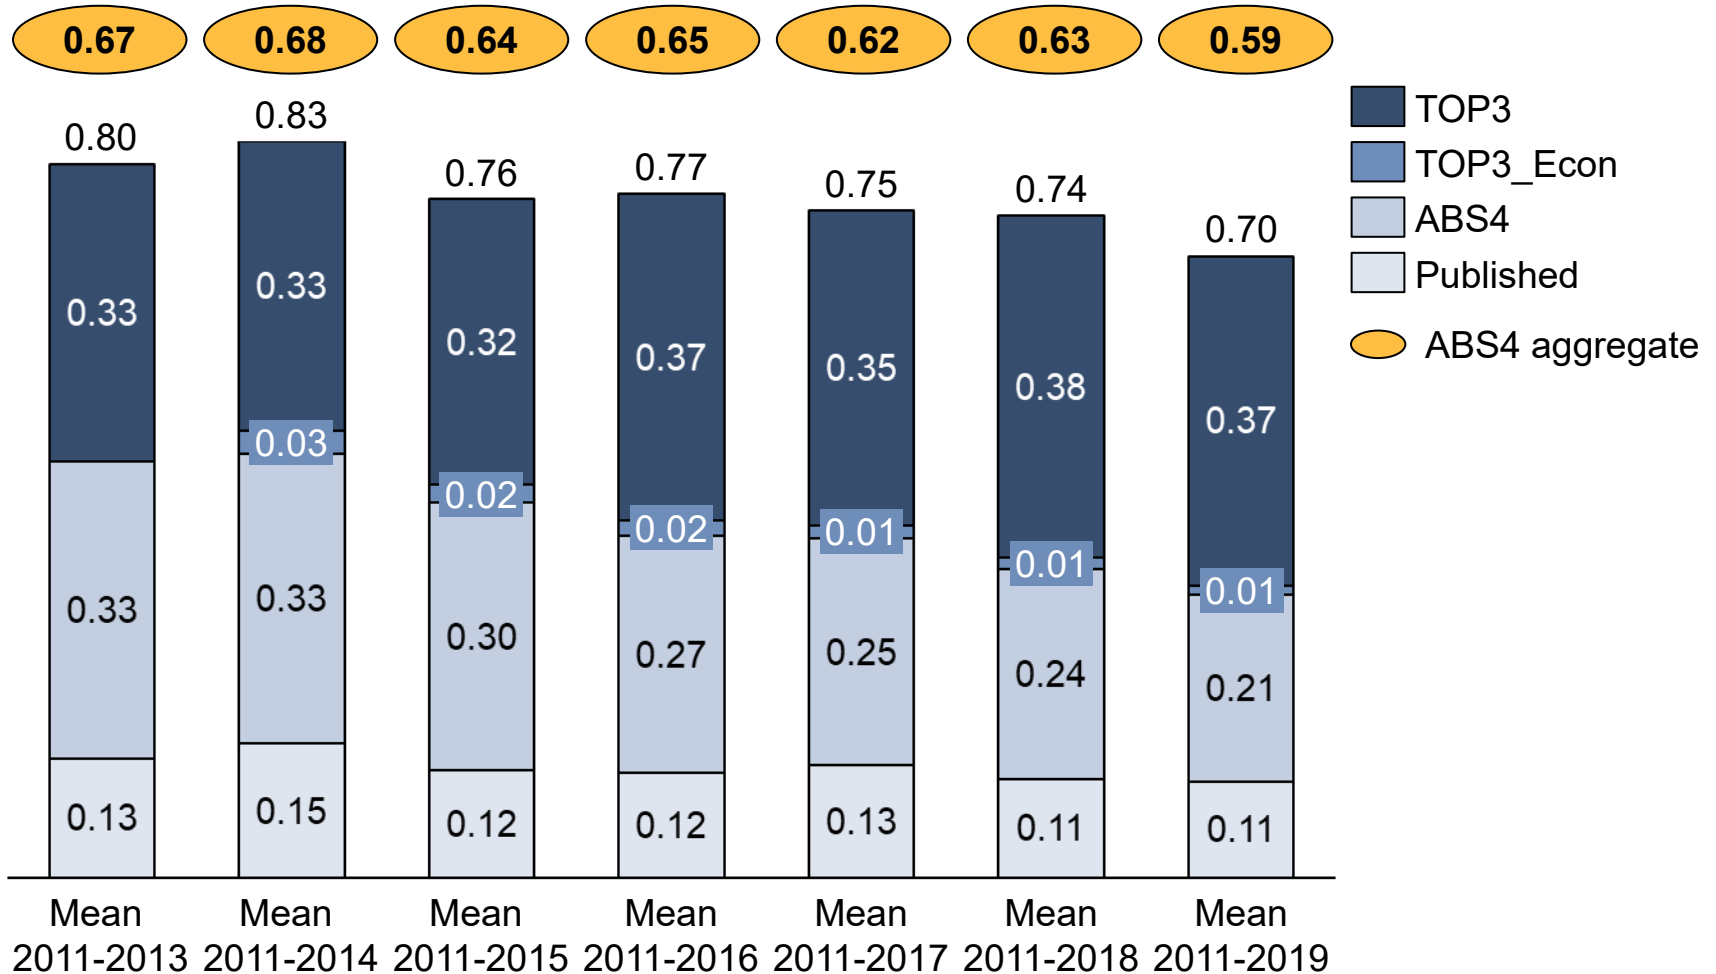

Publication success by year of HFS presentation

Fraction of papers published in TOP3, incremental fraction for TOP3_Econ, ABS4, and published, N=93

Aggregated publication success

Fraction of papers published in TOP3, incremental fraction for TOP3_Econ, ABS4, and published, N=30 for 2011-13, N=40 for 2011-14, N=50 for 2011-15, N=60 for 2011-16, N=71 for 2011-17, N=81 for 2011-18, N=93 for 2011-19

Distribution of publication outcomes for papers presented at HFS

2011-2019, N=93

Comparison with Reinartz and Urban (2017)

- Reinartz and Urban (2017) rank finance conferences based on eventual publication outcome
- Reinartz and Urban (2017) construct a sample of 47 top finance conferences held in 2006-2010 and track the publication outlet by October 2016 hence allowing at least 5.5 years for a paper to be published after conference presentation
- In comparison, we track papers presented between 2011-2016 (results are similar using 2011-2018 data) in June 2022 allowing at least 6 years for publication after a conference presentation

HFS would rank as #17 finance conference based on TOP3, #2 based on ABS4

- HFS would rank as #17 finance conference based on TOP3 publication success (see column 8 on next page)
 - Quality on par with e.g., FIRS and Adam Smith Asset Pricing conference
- HFS would rank as #2 finance conference based on ABS4 publication success (see column 11 on next page)
 - Quality on par with e.g., Jackson Hole Finance and NBER Corporate Finance conferences

--- Approximate ranking based on TOP3

--- Approximate ranking based on ABS4

Table 3: Publication success of finance conferences.

(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)	(11)	(12)	(13)
